

SNEHA JAISWAL

Product Manager · AI-Powered Products · FinTech · B2B SaaS · Agile Delivery

San Francisco, CA | snehajai907@gmail.com | (650) 880-5589 | [LinkedIn](#) | [Portfolio](#) | [Github](#)

PROFESSIONAL SUMMARY

Product Manager with 6 years of experience across AI/ML platforms, FinTech SaaS, and enterprise software — owning products from discovery and requirements through launch, UAT, and post-release iteration. Track record of building 0→1 AI/ML products, driving alignment from data scientists to C-suite, and delivering measurable outcomes for Fortune 500 and enterprise clients. Hands-on in PRDs, Agile delivery, stakeholder management, and data-driven prioritisation — equally strong in product thinking and execution.

Key outcomes: +18% revenue from new clients | -70% manual effort via automation | 100% on-time across 25+ launches | -20% stockouts & +18% sales uplift at Puma | \$1.2M cost savings

PROFESSIONAL EXPERIENCE

Product Delivery Manager | Prozech

Jan 2025 – Present | USA

AI-enabled SaaS & enterprise workflow solutions across cross-functional delivery programs

- Managed end-to-end delivery of **5+ AI-enabled** SaaS and enterprise workflow initiatives, aligning project scope, milestones, and release plans to business goals and achieving **95% on-time delivery** across 4+ workstreams.
- PO & Invoice Management:** Owned end-to-end invoice processing operations for B2B enterprise clients — reduced invoice cycle time from **14 to 5 days** and cut discrepancy resolution time by **40%**, saving **\$180K** annually by identifying root-cause mismatches between PO records and invoices and building a structured reconciliation workflow.
- Dashboard & Visibility Tools:** Built and maintained operational dashboards tracking PO status, SLA compliance, and workflow health across 6 cross-functional teams — gave leadership visibility into execution metrics and reduced escalations by **70%**.
- Automation & AI Tools:** Identified manual operational workflows and automated them using AI tools and scripting — cut manual task execution time by **40%** and improved process accuracy by **30%** across document handling, status tracking, and approval routing.
- Contract & Record Management:** Led contract upload, organization, and maintenance across internal systems — ensured **100%** record accuracy and audit readiness across all active client engagements.

Product Manager | Indus Valley Partners

Sep 2023 – Dec 2024 | New York, NY (Remote)

FinTech SaaS — pricing automation, portfolio analytics & client onboarding for alternative investment managers (~\$780B AUM)

- Owned pricing automation, portfolio analytics, and client onboarding across 4 enterprise clients — led a 15-person cross-functional pod and shipped 25+ features at 100% on-time delivery, driving **+18% new-account revenue** and **-70% manual-effort reduction**.
- Drove C-suite alignment (CFO, CRO) on roadmap prioritization using ROI-based business cases — secured incremental engineering headcount and accelerated a flagship pricing initiative by **2 quarters**.
- Defined ETL/ELT pipeline requirements to scale data infrastructure from 4 to 6 clients — evaluated real-time vs. batch trade-offs, chose batch architecture, reducing pipeline latency **35%** and data-handling overhead **45%**.
- Mentored 2 junior PMs on RICE/ICE prioritization — their shipped features reduced support tickets **20%**; one independently led a C-suite roadmap review within 6 months.
- Authored PRDs for 25+ automated financial-reporting workflows — led UAT cycles, achieved **100% user adoption** at launch, and resolved a cross-team dependency unblocking a 3-week delivery milestone.

Product Manager | MathCo (AI/ML SaaS) · Client: Puma (Fortune 500)

May 2022 – Sep 2023 | India

0→1 AI/ML platform — demand forecasting, budget planning, supply optimization for Puma's global supply chain

- Built a 0→1 AI/ML demand forecasting and supply optimization platform for Puma — coordinated an 8-person cross-functional pod across 18 months and 3 major releases, delivering **-20% stockouts**, **+18% sales uplift**, and **+23% forecast accuracy**.
- Identified Puma's core planning gap (**20%+** forecast error from disconnected demand/supply tools) via continuous discovery — prioritized a unified AI platform over point-solutions using stakeholder-impact scoring, shifting the org roadmap by **2 quarters**.

- Defined **model evaluation criteria** with the data-science team (accuracy, coverage, latency SLAs) and instituted weekly drift reviews — caught **2 underperforming model versions** before customer impact.
- Tracked anomaly-detection adoption (25% post-launch) — shipped 3 targeted improvements (alert thresholds, in-context explanations, digest notifications), driving adoption to **80%** in 2 quarters and cutting support escalations **45%**.
- Ran A/B experiments on the recommendation model (**+25% conversion lift**, retention/LTV neutral) — reduced planning cycle from 8 to 5 weeks, contributing to **+60% client acquisitions** and **+21% ARR growth**.

Business / Product Analyst | Accenture

Jan 2018 – Aug 2020 | India

ERP & e-commerce platform delivery — Healthcare and retail enterprise clients

- Authored **100+** user stories with acceptance criteria across 3 enterprise ERP programs — reduced dev clarification cycles **30%** and lifted first-pass UAT acceptance **25%**.
- Conducted legacy-to-ERP gap analysis across 2 large-scale programs — surfaced integration risks early and prevented scope creep, adding **3+ weeks** to delivery timelines.
- Built business cases and stakeholder reports across concurrent projects — contributed to **\$1.2M** in cost savings and a **40%** e-commerce performance lift, driving **30%** revenue growth.

PORTFOLIO PROJECTS — LIVE & DEPLOYED · 2025

FinDoc Intelligence · RAG · GenAI · LLM Evaluation · Probabilistic UX · [Live Demo ↗](#) · [GitHub ↗](#) · 2025

RAG-powered Q&A for financial documents (Groq/Llama 3.3 70B · sentence-transformers · Streamlit). Designed 3-tier Human-in-the-Loop confidence gate — auto-approve, flag for review, or refuse when context is insufficient. LLM-as-Judge eval harness achieved 1.00 groundedness score and zero hallucinations across all test cases.

DemandSense · ML Forecasting · Probabilistic UI · HITL Design · [Live Demo ↗](#) · [GitHub ↗](#) · 2025

Probabilistic revenue forecasting dashboard (Prophet · LightGBM · Plotly · Streamlit). Trained on 48 months of retail data, generating 6-month forecasts with 80% confidence intervals and Human-in-the-Loop procurement alert gates protecting ~\$113K annual revenue.

AI Workflow Automation Agent · Agentic AI · Langflow · NVIDIA NIM · [GitHub ↗](#) · 2025

Multi-step agentic automation tool with a 50-example eval harness — achieved 87% end-to-end task completion vs. 62% single-prompt baseline. Automated prompt chaining and workflow orchestration cut manual task execution time 40% and improved response accuracy 30%.

SKILLS & EXPERTISE

Product Management: Roadmap & Prioritization (RICE/ICE), 0→1 Delivery, PRDs/BRDs, User Stories, Sprint Planning, UAT, Release Management, A/B Testing, KPI/OKR/North Star, JTBD & Continuous Discovery, Stakeholder & C-suite Management, GTM Planning, Agile/Scrum, Kanban

AI / ML & GenAI: LLM Evaluation (Ragas, LLM-as-Judge), RAG Architecture, Human-in-the-Loop Design, Probabilistic UX, Agentic Workflows (Langflow, NVIDIA NIM), Prompt Engineering, Model Accuracy vs. Latency/Cost Trade-offs, Model Drift Awareness, Confidence Thresholding

Data & Analytics: SQL, Power BI, Tableau, Google Analytics, A/B Experimentation, ETL/ELT Pipeline Requirements, KPI Reporting

Technical & Tools: Python, REST APIs, AWS, Azure, CI/CD, Figma, Jira, Confluence, Postman, Streamlit, GitHub, Excel

EDUCATION

MBA — IT, Data Analytics & Marketing

May 2020 – May 2022

Indian Institute of Management (IIM) Kashipur — India's nationally administered network of premier business schools

University Leadership: Executive Member of Marketing Club; Hosted events/guest lectures, led marketing learning sessions.

Internships: Omnicard (+65% workflow efficiency), Take10Trivia (+20% engagement), PrepLeaf (+25% retention, +20% revenue)

B.Tech — Computer Science

May 2017

Banasthali University, India
